

Blood Donation Drives with Red Cross Blood Bank of Ahmedabad

During my 11th and 12th grade, I embarked on a mission to make a meaningful impact on the lives of patients with thalassemia. This drive was fuelled by my sincere desire to contribute to the welfare of those suffering from this genetic blood disorder. To achieve this goal, I collaborated with the Red Cross Blood Bank of Ahmedabad to conduct several successful blood drives, which ultimately resulted in the collection of over 200 blood bags.

The inspiration behind my commitment to these drives was my desire to alleviate the suffering of thalassemia patients. I firmly believe that a small act of donating blood can have a significant and positive impact on someone's life. By coordinating these blood drives, I aimed to provide a lifeline to those in need and raise awareness about the importance of regular blood donations to sustain the blood supply for patients with thalassemia.

In addition to organizing blood drives, I furthered my dedication to this cause by delving into extensive research on thalassemia. I even authored a research paper that shed light on the condition, its prevalence, and potential treatment options. This research allowed me to develop a deeper understanding of the challenges faced by thalassemia patients and the importance of accessible blood supplies. My involvement in these initiatives allowed me to hone valuable management and leadership skills. Coordinating blood drives required meticulous planning, effective communication, and teamwork. It also honed my ability to mobilize volunteers and donors, as well as manage the logistical aspects of the drives.

Through these experiences, I not only contributed to the welfare of thalassemia patients but also developed essential life skills. I learned the power of determination, organization, and leadership, and I am committed to continuing my efforts to make a difference in the lives of those in need. My journey with the Red Cross Blood Bank of Ahmedabad has been transformative, and I look forward to many more opportunities to serve my community and help those in need.

To whom It May Concern

The Ahmedabad Red Cross Blood Bank has undertaken the responsibility of caring for 1,156 Thalassemia-afflicted children who require regular blood transfusions to meet their medical needs. We supply them with blood units at no cost and facilitate the transfusion process at our center. Daily, an average of 30 to 35 children visits our facility for their essential transfusions. Furthermore, we extend our commitment to these children by ensuring they have a pre-scheduled arrangement for their forthcoming blood transfusions.

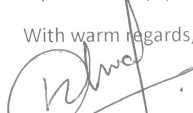

This initiative is not only about providing essential medical support but also about fostering a sense of community and compassion. We firmly believe that young individuals have the power to make a significant impact on the lives of those in need and have a unique opportunity to extend a helping hand to these children and play a vital role in our mission.

We are writing to express our heartfelt appreciation to Ms. Jeeya Shah, student of Anand Niketan International school and associated with Ahmedabad Redcross Blood bank, for her remarkable initiative in organizing multiple blood drives to support thalassemia patients. The Ahmedabad Red Cross Blood Bank is deeply grateful for the dedication and enthusiasm exhibited by Jeeya. The blood collected through these blood drives have undoubtedly provided a lifeline to thalassemia patients, offering them the hope of a healthier and brighter future. Jeeya's efforts will make a significant impact on the lives of these individuals and their families.

Once again, we thank you Jeeya for her outstanding commitment to our mission of saving lives through blood donation. We look forward to continuing our partnership with her in the future and hope to inspire even more acts of kindness and compassion.

If you have any questions or would like to discuss this further, please feel free to contact us.

With warm regards,

Dhava Shah
